Doğru Renk Doğru Seçim...

Ev dekorasyonunda en önemli detaylardan biri renk seçimidir. Yaşam alanlarımızı daha canlı hale getirmek için doğru renk kombinasyonları kullanmalıyız. Seçimlerimizde; alanımızdaki doğal ışığı, mevcut mobilya ve aksesuarlarımızı, alan genişliğini dikkate almalıyız. Beyaz haricinde ki renk seçimlerinde tamamlayıcı renklerle kullanarak yumuşak geçişler yapabilir ve yaşam alanımıza farklı boyut ve doku kazandırabiliriz...

Right Color Right Choice...

One of the most important details for home decoration is choosing the right color. We should use the right color combinations to liven our living places up. We should consider natural light in our place, furniture, accessories and place width in our choices. In color choices except white, smooth transitions may be executed by using complementary colors and we may provide different aspect and texture to our living places.
